

- ☐ **Register online** with full payment.
- ☐ This program does not qualify for Financial Aid. You can contact local nursing homes for assistance, or your local Ohio Means Jobs office.
- ☐ If a local nursing home will cover tuition cost, the student will need to complete the registration form and have the Director of Nursing or Administrator of the facility complete the “Third Party Pay” section on the last page of the **registration form**. This can be emailed to adultregistration@apollocc.org or turned into the Adult Education Office.

Program Requirements

- ☐ This class has a 100% attendance policy.
- ☐ Current 2-step Mantoux (TB) test (within 3 months). If you are currently working in healthcare and had your original 2-step TB test, and have maintained your yearly updates (within 3 months), bring copies of those results with you to class.

How to do a Two-Step TB Test

1. Have a trained health care personnel inject 0.1 ml of tuberculin purified protein derivative (PPD) into the inner surface of your forearm. A pale elevation of the skin at the injection spot appears and indicates a correct intradermal injection.
 2. Go back to the health care provider 48-72 hours after initial tuberculin injection. The health care personnel will read the test by measuring the test area induration (swelling, redness, raised or hardened area). Depending on your health status, an induration of greater than 5mm may be considered positive.
 3. After a week from the initial TST when your skin test reads negative, have the health care personnel place a second tuberculin injection. This subsequent testing allows for a boosted reaction from a previous infection to read positive.
 4. Return to your health care provider 48-72 hours from the second TST and get a test reading. A negative two-step TB test indicates no current or previous TB infection. A positive two-step test indicates infection and additional evaluation to rule out current TB infection is performed.
- ☐ Uniform, including a white scrub top, navy uniform pants/skirt and white shoes will be required beginning the first day of the second week of class.
